ISBN-13: 9781936221172
Edition: Roberts & Company Publishers
Date of issue: 1 October 2012
Description of the book 'Evolution: Making Sense of Life': Science writer Carl Zimmer and evolutionary biologist Douglas Emlen have teamed up to write a textbook intended for biology majors that will inspire students while delivering a solid foundation in evolutionary biology.. Zimmer brings the same story-telling skills he displayed in *The Tangled Bank*, his 2009 non-majors textbook that the *Quarterly Review of Biology* called B“spectacularly successful.. With riveting stories about evolutionary biologists at work everywhere from the Arctic to tropical rain forests to hospital wards, the book is a reading adventure designed to grab the imagination of the students, showing them exactly why it is that evolution makes such brilliant sense of life.
